is an essential temp in an Engineering School. A person to act as a Storekeeper separately in a School which has a staff Teachers & Servants does not also seem to be necessary

6 Increases appear have been proposed to the Darcent peon on the Screen Prod work. There is no reason for granting an increase.

7 There is no help but to sanction the increase under House Rent and Conveyance Allowances. Against an increase of 527 Rs proposed 203 Rs may be sanctioned the total reduction 50 Rs which is apparently unnecessary will of course be filled up Hereby)

SIR

I have the honour to submit for sanction a memorandum containing proposals for additional charges required for the Mysore Engineering school in connection with the ensuing year's Local Funds General Budget

I have the honour to be,

Sir,

Proposals for additional charges required for the Mysore Engineering school, in connection with the budget of the Industrial and other special schools for 1911-12

---

1 A meeting of the managing Committee of the Engineering school was held in Mysore on the 11th of February 1911 to discuss the budget estimates, and additional charges have been proposed for the next year's budget under the following sub heads --

(a) Establishment

(1) Much difficulty is now experienced for want of a proper man to look after the surveying instruments, models, the drawing paper and the students' accounts It is also intended to impart instruction in Carpentry to the students of the school It is therefore proposed to employ a Carpentr instructor on Rs 25/-with a two-fold object He will not only serve as store-keeper but will also help in getting models prepared for the use of the school

(2) An increase of pay of one rupee each has been recommended for the head lascar on Rs 7/- and one of the two peons on Rs 6/- in consideration of their good work

The total increase under establishment will be Rs 300 plus Rs 24 or 324 rupees

(b) House rent with water tax

The annual provision made in the budget is Rs 615/- But as the water tax has been lately revised the provision has to be raised to Rs 618/-

(c) Instruments and models

A sum of Rs 300/- has been provided for instruments and models in the current year's budget It is proposed to purchase

a level with stadia points for the surveying section It is estimated to cost about Rs 500/- Consequently the extra charge under this head will be Rs 200/-

2 S U M M A R Y

The total of additional charges under the three sub heads will thus be Rs 527/- as shown in the following statement --

Sub-head	Provision sanctioned for 1910-11	Provision proposed for 1911-12	Difference
(a)Establishment			
1 Store-keeper and Carpentry Instructor on Rs 25	"	300	+ 300
2 Lascars	300	312	+ 12
3 Peons	144	156	+ 12
(b) House rent with water tax	615	618	+ 3
(c) Instruments and models	300	500	+200
	Rs1359	1886	+527

3 Reduction

As a set off against this increase it is proposed to give up the appointment of the Assistant Master on Rs 50/- for the training of Sanitary Inspectors, as his services will not be required for the school

Consequently there will be practically no extra charge to Government, but on the other hand a net annual saving of Rs 600 minus Rs 527 or Rs 73

I fully agree with the views of the Committee and recommend

4

recommend that the additional charges proposed for the year 1911-12 may be kindly sanctioned and the necessary provision included in the budget The Engineering school has been doing very good work in the cause of Technical Education in the State, and has been a means of providing a decent livelihood to many of the young men who have passed out of it
